From	Quillwood originator, Real Estate Origination (Brisbane)
To	Credit analyst, screening
Date	25 September 2026
Subject	Harbour Point: Westgate final desktop valuation replaces draft v1
Deal reference	QCP-RE-2026-0511
Borrower	Harbour Point Developments Pty Ltd, ABN 43 501 397 885
Property	Burpengary East QLD, 46.2 ha, 412 lots in four stages

1. Purpose

Westgate Valuation Advisory has issued its final desktop valuation dated 24 September 2026 (ref WVA-BNE-26-0912). It replaces the draft v1 dated 12 August 2026. Please use the final for all screening work on Harbour Point and discard the draft numbers.

2. What changed

The indicative as-is (englobo) value has moved from A$41.5M to A$44.0M, an increase of A$2.5M or 6.0%. Westgate added two recent englobo sales at Burpengary to its evidence base. The adopted average lot price of about A$563,800 and the indicative gross realisation for stages 1 and 2 of A$118.4M (including GST) are as stated in the final.

Item	Draft v1	Final	Change
Report date	12 Aug 2026	24 Sep 2026	n/a
Indicative as-is value (A$M)	41.5	44.0	+2.5
Englobo sales added	None	Two, Burpengary	n/a

Table 1. Westgate draft v1 against final

3. Screening metrics on the final

The leverage metrics below are on the A$65.0M request and the final desktop figures. They are unchanged from the headline numbers in the screening pack, because the facility size, total project cost and GRV are not affected by the as-is revision.

Metric	Value
Facility limit	A$65.0M
Gross realisation, stages 1 and 2	A$118.4M
Facility to GRV	54.9%
Total development cost	A$90.5M
Facility to cost	71.8%
Sponsor equity	A$25.5M
Pre-sales	64 lots, 30.5% of 210
Existing land loan to refinance	A$22.0M

Table 2. Screening metrics, final desktop basis

Westgate notes that sales rates have slowed through 2026 and incentives have increased. A 5% fall in lot prices would reduce GRV by about A$5.9M to roughly A$112.5M, which would lift the facility to GRV ratio to about 57.8%. The land loan to be refinanced is about half of the revised as-is value.

4. Limitations

- The valuation is desktop only, prepared without inspection or review of civil cost information. It is indicative and not for mortgage security.
- There is no quantity surveyor's report. Civils of A$31.6M and contingency of A$3.2M are sponsor figures.
- Development approval for stages 1 and 2 was granted on 14 August 2026. Stages 3 and 4 are under assessment and are not part of the request.
- Any credit approval would need a full valuation addressed to Quillwood, with inspection, and an independent QS review.

5. Next steps

Please refresh the screening note on the final figures and flag anything that falls outside appetite for a land and civils facility. We should not ask Tidewater to fund a full valuation and QS report until you have confirmed screening is supportive. Call me if you want to discuss the englobo evidence before then.
