1. Introduction

Corliss & Grant Advisory has been engaged by Aldgate Logistics Holdings Pty Ltd to arrange a senior secured term loan of A$120.0M. The facility will refinance the group's existing bank debt of A$58.0M and part-fund the acquisition of Polar Freight Services, a regional cold-chain operator, for an enterprise value of A$96.0M.

This memorandum is a preliminary summary prepared from information provided by management. It has not been independently verified. No financial, commercial or legal due diligence has been commissioned at this stage, and the terms described are indicative only.

2. The business

Aldgate operates temperature-controlled warehousing and distribution across New South Wales and the ACT from 9 distribution centres with approximately 182,000 pallet positions and a fleet of 410 refrigerated vehicles. It serves supermarket, food manufacturing and pharmaceutical customers.

Halyard Partners acquired a 72% interest in Aldgate in 2021. Management holds the remaining 28%. Since the acquisition, revenue has grown from A$196.2M in FY22 to A$271.4M in FY25, and EBITDA from A$27.1M to A$43.9M.

Investment highlights

- Long-standing contracts with the group's three largest customers, with an average tenure of nine years.
- Cold storage capacity in Sydney remains tight, supporting pricing and utilisation.
- Polar Freight extends the network to Newcastle, Wollongong and Canberra with three distribution centres and 120 vehicles.
- Experienced management team with a record of integrating two smaller acquisitions since 2022.

3. The transaction

Sources	A$M	Uses	A$M

Table 1. Indicative sources and uses

Management is seeking a five-year tenor and indicative pricing of 3-month BBSW plus a margin in the order of 4.75%. Security would comprise a general security deed over the group and guarantees from material subsidiaries.

4. Financial summary

A$M	FY22	FY23	FY24	FY25	FY25 pro forma
Revenue	196.2	221.5	248.6	271.4	346.2
EBITDA	27.1	31.8	38.2	43.9	55.5
EBITDA margin	13.8%	14.4%	15.4%	16.2%	16.0%

Table 2. Summary financials (management accounts, unaudited for FY25)

On a pro forma basis, including twelve months of Polar Freight, net debt at completion would be approximately A$106.0M, or 1.91 times pro forma EBITDA of A$55.5M. Management has identified A$2.4M of annual cost synergies, which are not included in these figures.
