Our network

Site	Type	Pallet positions	Commissioned
Wetherill Park	Frozen and chilled DC (head office)	38,000	2009
Moorebank	Chilled DC	29,500	2014
Erskine Park	Frozen DC	26,000	2016
Minchinbury	Pharmaceutical (2-8°C) DC	12,500	2018
Prestons	Chilled cross-dock	18,000	2019
Ingleburn	Frozen DC	21,000	2020
Smeaton Grange	Chilled DC	15,000	2022
Fyshwick (ACT)	Multi-temperature DC	11,000	2022
Riverwood	Last-mile chilled hub	11,000	2024

Table 1. Aldgate distribution centres

Around 68% of our pallet positions are in Western Sydney, within 30 kilometres of the M4 and M7 motorways. Average utilisation across the network was 93% in FY25.

Customers

Figure 2. Customer concentration, FY25 revenue

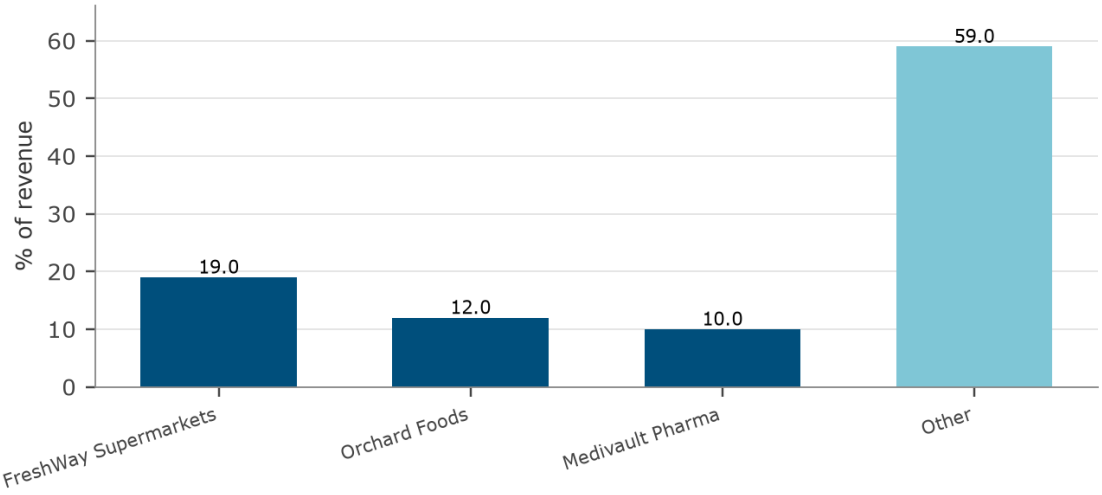

Figure 2. Customer concentration, FY25 revenue

Our three largest customers contributed 41% of FY25 revenue. FreshWay Supermarkets, our largest customer at 19%, is contracted until June 2029. The Orchard Foods contract is due for renewal in March 2027 and renewal discussions have started.

Polar Freight and integration

Polar Freight earned revenue of A$74.8M and EBITDA of A$11.6M in FY25. Its three regional distribution centres fill the gaps in our coverage outside Sydney. We plan to move Polar onto our transport management system within nine months.

Growth capital

We plan to build an automated distribution centre at Eastern Creek at an estimated cost of A$46.0M over FY27 and FY28. We expect to fund it from operating cash flow and a sale-and-leaseback of the completed building. The project has not yet been approved by the board.
