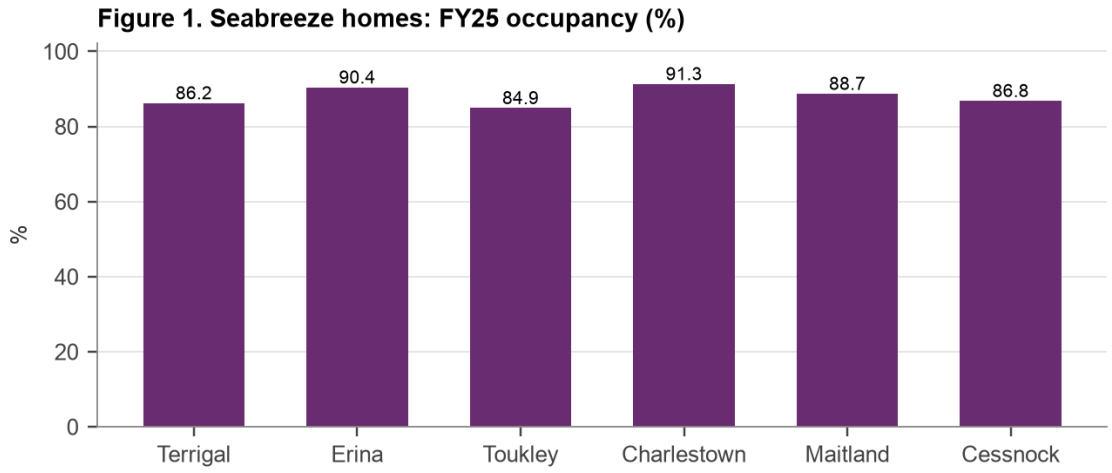

Figure 1. FY25 occupancy by home

Seabreeze occupancy averaged 88.1% in FY25, below Banksia's 93.4%. Banksia expects to lift occupancy to 92% by the end of FY27 through its referral network with Hunter New England hospitals and by refurbishing 96 rooms.

3. Strategy

- Build density in the Central Coast and Hunter, where Banksia already operates four homes.
- Move Seabreeze homes onto Banksia's rostering and procurement systems within twelve months.
- Refurbish 96 rooms over FY27 to support occupancy and accommodation pricing.
