Transaction details

1. Status of this term sheet

This term sheet is an indicative summary only. It is not an offer or commitment to lend, creates no legal obligation and remains subject to credit approval, satisfactory due diligence and agreed documentation. Terms may change before approval.

2. Transaction overview

Ironleaf Partners Fund II proposes to acquire the Greenhaul group at an enterprise value of A$112.0M, being 7.4x FY26 forecast EBITDA of A$15.2M. A share sale agreement was executed with the founding shareholders in July 2025, subject to financing and customary conditions. Greenhaul Waste Services Pty Ltd will be the borrower following completion of the post-acquisition group restructure.

Greenhaul provides commercial and industrial waste collection, skip bin hire and materials recovery across South Australia and Victoria. It operates three depots (Wingfield, Mount Gambier and Dandenong South), a materials recovery facility (MRF) at Wingfield and 74 collection vehicles, and serves about 3,400 customers with 286 FTE employees. About 71% of FY26 forecast revenue is contracted or recurring.

3. Facility terms

Term	Indicative position
Facility	Senior secured acquisition term facility
Limit	A$57.0M
Tenor	60 months
Repayment	Bullet, with 1.0% per annum amortisation (A$0.57M per annum)

Uses of funds. Transaction costs are derived as the balancing item.

5. Credit metrics

Metric	Value
Revenue FY25 / FY26 forecast	A$106.9M / A$118.4M
EBITDA FY25 / FY26 forecast	A$13.6M / A$15.2M
EBITDA margin FY26	12.8%
Net debt at close	A$56.0M
Net leverage (FY26 EBITDA)	3.7x
Interest cover FY26	3.2x
Loan to enterprise value	50.9%
Maintenance capex FY26	A$6.1M
Plant and fleet OLV	A$24.8M

Key metrics, sponsor case

6. Security and covenants

- First ranking general security over all present and after-acquired property of the borrower and each material subsidiary, with cross guarantees.
- Share security over the borrower and its subsidiaries, and mortgages over owned real property, with landlord consents for leased sites.
- Specific security over plant and fleet, supported by the Tallis Asset Valuers orderly liquidation value (OLV) of A$24.8M.
- Quarterly tested covenants: maximum net leverage of 4.30x and minimum interest cover of 2.50x, with levels to be confirmed on credit approval.

7. Key risks

- Landfill levy and regulatory change may compress margins where costs are not passed through under contract.
- Recycled commodity revenue is volatile, and sponsor case prices are conservative for FY26 only.
- Transactional skip bin work is exposed to a downturn in construction and demolition activity.
- Diesel prices, vehicle replacement cycles and driver availability may erode EBITDA if indexation lags.
- The Wingfield MRF carries fire, contamination and EPA licence compliance risk.
- Net leverage of 3.7x leaves limited covenant headroom if FY26 EBITDA falls short of forecast.

8. Conditions precedent

- Credit approval by Quillwood Credit Partners.

- Satisfactory review of the Ellery Shaw Advisory financial due diligence and Brandt Kessler audited FY25 financials, with management accounts to 14 November 2025 consistent with the sponsor case.
- Satisfactory Halvorsen Pearce Advisory valuation (19 September 2025), Corrigan Mott Engineering technical and capex report (26 September 2025) and Tallis Asset Valuers fleet valuation.
- Completion of the group restructure, sponsor equity of A$60.0M funded in cash, and satisfactory legal documentation, insurance and EPA licence review.
