1. Summary

The median residential lot price in Moreton Bay rose 4.1% over the year to the September 2026 quarter to A$548,000. Demand remains supported by population growth, but buyers are taking longer to commit: median days on market rose from 38 to 58 over two years.

2. Supply

Around 4,100 lots are approved and unreleased across the northern growth corridor, equal to roughly two and a half years of sales at current rates. New releases in Caboolture West and Narangba will compete directly with projects in Burpengary East.

3. Outlook

We expect lot prices to grow by 2% to 3% over the next year, with sales volumes about 9% lower than in 2025 as higher interest rates weigh on first-home buyers. Projects with strong pre-sales and staged releases are best placed.
