Date: 2 February 2026

Synthetic - for demonstration. All names, entities and figures are fictional.
Confidential. Prepared for the addressee only and not to be relied on by any other party.

Borrower	Precinct Land Co Pty Ltd
ABN	34 822 626 657
Sponsor	Precinct Communities Group Pty Ltd (trading as Precinct Communities)
Registered office	Level 6, 40 Creek Street, Brisbane QLD 4000
Property	Lot 41 Rowley Road, Morayfield QLD 4506 (38.5 hectares)
Facility sought	A$52.0M senior secured land and civils development facility, 30 months
Financial adviser	Tidewater Capital Advisory Pty Ltd
Legal adviser	Calloway Finch Lawyers
Date and version	2 February 2026, version 1.0

Details of the proposed financing

1. Important notice

This information memorandum has been prepared by Precinct Communities Group Pty Ltd (trading as Precinct Communities) (the Sponsor) for the sole purpose of inviting indicative proposals from prospective senior lenders to Precinct Land Co Pty Ltd (the Borrower). It is not an offer of securities or a credit product and does not form the basis of any contract.

The financial projections, sales assumptions and cost estimates in this document are those of the Sponsor and the Borrower. They are forward looking, rest on assumptions that may not be realised, and have not been independently verified. Each recipient should make its own enquiries and commission its own independent valuation, quantity surveyor and legal due diligence before relying on any figure. Unless stated otherwise, all amounts are in Australian dollars and exclude GST.

2. Executive summary

The Borrower is a special purpose development vehicle wholly owned by the Sponsor. It holds a 38.5 hectare site at Lot 41 Rowley Road, Morayfield, in the Moreton Bay local government area, acquired in June 2024 for A$27.0M. Development approval for 286 residential lots in six stages was granted by Moreton Bay Regional Council on 21 March 2025. Operational works approval for stages 1 and 2 was received on 10 November 2025 and early bulk earthworks have commenced.

The Borrower seeks a senior secured land and civils development facility of A$52.0M for a term of 30 months. The facility will fund land allocated to stages 1 and 2, civil and infrastructure construction for 148 lots, infrastructure charges, professional fees and capitalised interest and fees. Repayment will come from lot settlements through a release price mechanism. Stages 3 to 6 (138 lots) are outside the facility and are expected to be funded separately after stage 2 is substantially complete.

- Gross realisation of A$80.7M for stages 1 and 2, based on an average lot price of about A$545,000 across 148 lots, in line with recent Moreton Bay lot medians.
- Total development cost of A$67.0M, giving a forecast margin on cost of 20.4%.
- Sponsor equity of A$15.0M, applied ahead of facility drawings. The facility limit of A$52.0M represents a loan to cost ratio of 77.6% and a loan to gross realisation ratio of 64.4%.
- 49 of 148 lots (33% by lot count, A$26.4M) are under contract with 10% deposits held in the sales agent's trust account, within the first two weeks of the public campaign launched on 19 January 2026.
- Sponsor case absorption of 8.0 lots per month, implying sell-out of stages 1 and 2 in about 18.5 months from launch, inside the 30 month tenor.

- Security comprising a first registered mortgage over the whole site, a general security agreement (GSA) over the Borrower and a Sponsor completion guarantee.

3. The proposed facility

3.1 Indicative terms

Term	Proposed
Borrower	Precinct Land Co Pty Ltd
Facility type	Senior secured land and civils development facility
Facility limit	A$52.0M
Tenor	30 months from financial close
Interest rate	3 month BBSW plus 6.25% p.a.
Establishment fee	1.50% of the facility limit
Line fee	1.00% p.a. on undrawn commitments
Release price	100% of net sale proceeds until the facility is repaid to 60% of the outstanding balance, then 110% of allocated debt
Security	First registered mortgage over the whole site, GSA, Sponsor completion guarantee

Indicative terms, subject to credit approval

3.2 Purpose and use of funds

Facility proceeds will be applied to land allocated to stages 1 and 2, bulk earthworks, roads, stormwater, sewer, water and electrical reticulation, infrastructure charges, professional fees and capitalised interest and fees. The short-term acquisition loan used to settle the site in June 2024 is to be refinanced from facility proceeds to the extent it relates to the land allocated to stages 1 and 2.

3.3 Sources and uses

Source	A$M	% of TDC
Senior facility	52.0	77.6%
Sponsor equity	15.0	22.4%
Total sources	**67.0**	**100.0%**

Sources of funds, stages 1 and 2

4. Borrower and Sponsor

4.1 The Borrower

Precinct Land Co Pty Ltd (ABN 34 822 626 657) is a single-purpose company incorporated to hold and develop the Morayfield site. It has no other business, no employees and no borrowings other than the acquisition loan to be refinanced. It is wholly owned by the Sponsor, and the Sponsor will provide development management services to the Borrower.

4.2 The Sponsor

Precinct Communities is a Brisbane based residential land developer focused on masterplanned communities in south-east Queensland. The Sponsor identified the Morayfield site in November 2023, signed a conditional contract subject to development approval and due diligence, and has carried the project through acquisition, approval and early works. The Sponsor will provide the equity, a completion guarantee and, in due course, the funding arrangements for stages 3 to 6.

4.3 Directors and management

Name	Role
Daniel Kerrigan	Managing Director and Chief Executive Officer
Priya Eastwood	Finance Director
Mark Tolliday	Non-executive Director (Precinct Communities nominee)

Borrower directors

Mr Kerrigan leads project delivery, sales strategy and relationships with Council and the consultant team. Ms Venkataraman is responsible for project finance, lender reporting and cash management. Mr Tolliday represents the Sponsor on the Borrower board.

4.4 Advisers

Role	Firm
Financial adviser	Tidewater Capital Advisory Pty Ltd
Legal adviser	Calloway Finch Lawyers
Sales agent	Bayline Projects Marketing Pty Ltd
Sponsor auditor	Westmere Partners Audit Pty Ltd

Key advisers to the Sponsor and Borrower

The Sponsor expects lenders to appoint their own independent valuer and quantity surveyor. Harcourt Lyle Valuers Pty Ltd and Brannock & Dyer Quantity Surveyors Pty Ltd are suggested as suitable panel firms. Lenders may nominate others.

5. The project

5.1 Site and approvals

The site is 38.5 hectares at Lot 41 Rowley Road, Morayfield QLD 4506. The approved masterplan delivers 286 residential lots in six stages. This facility relates to stages 1 and 2 only, which comprise 148 lots, or about 52% of the approved yield. Parts of the site sit within a flood and overland flow overlay. The approved stormwater design and lot layout for stages 1 and 2 respond to that overlay, and the earthworks design sets finished levels for the affected lots accordingly.

5.2 Project history and programme

Date	Milestone
15 Nov 2023	Site identified and conditional contract signed, subject to development approval and due diligence
28 Jun 2024	Acquisition settled for A$27.0M, funded by Sponsor equity and a short-term acquisition loan
21 Mar 2025	Council grants development approval for 286 lots in six stages
10 Nov 2025	Operational works approval for stages 1 and 2, early bulk earthworks commence
19 Jan 2026	Public sales campaign launches, 49 contracts executed by the date of this memorandum

Project milestones to date

The Sponsor programme provides for bulk earthworks and trunk services across both stages, followed by roads, stormwater, sewer, water and electrical reticulation, practical completion and title registration by stage. On the Sponsor programme, final stage 2 settlements fall around month 24 of the facility, leaving about six months of the 30 month tenor in reserve.

6. Market and sales

6.1 Pricing

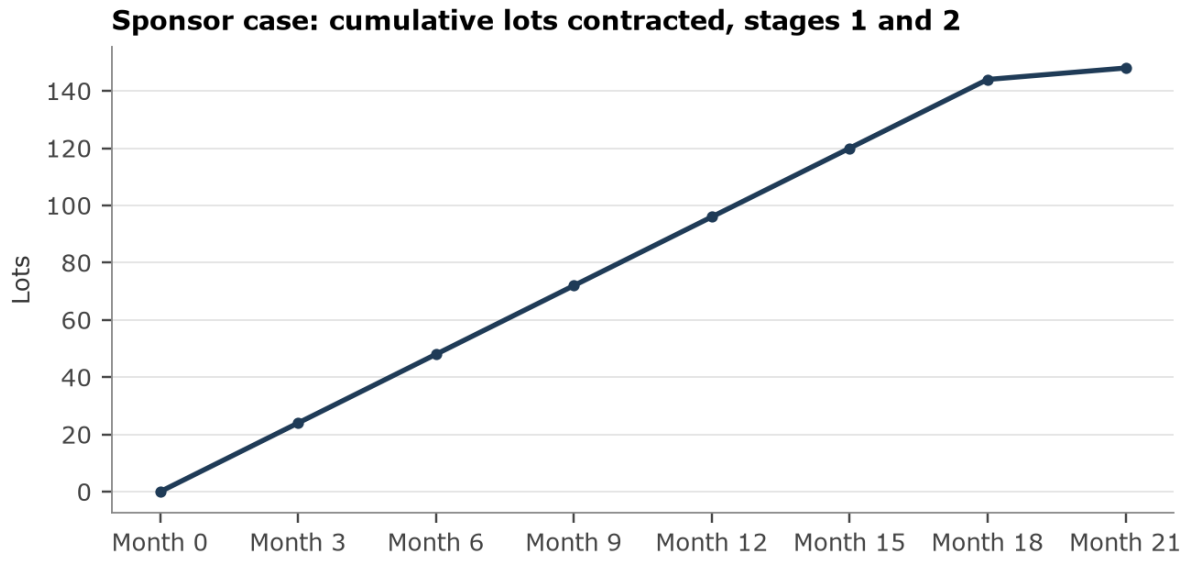

The Sponsor assumes an average lot price of about A$545,000 across the 148 lots, in line with recent Moreton Bay lot medians. This produces a gross realisation of A$80.7M. Morayfield is serviced by rail and the Bruce Highway corridor and offers a lower entry price than lots closer to Brisbane, which supports demand from first home buyers and owner-occupier families.

6.2 Presales

The public campaign, managed by Bayline Projects Marketing Pty Ltd, launched on 19 January 2026. By 2 February 2026, 49 of the 148 lots had been contracted. The contracts total A$26.4M, an average of about A$539,000 per lot, and 10% deposits (about A$2.64M) are held in the sales agent's trust account. Contracted sales equal 33% of lots by count and about 51% of the proposed facility limit by value.

6.3 Absorption

The Sponsor case assumes absorption of 8.0 lots per month, which implies sell-out of stages 1 and 2 in about 18.5 months from launch. The chart below shows cumulative lots contracted on that basis. The 49 contracts already signed were achieved in the first two weeks of the campaign and are ahead of the rate assumed.

Sponsor case absorption of 8.0 lots per month from the 19 January 2026 launch, capped at 148 lots. Sell-out is reached in about 18.5 months.

6.4 Buyer settlement

Contracts are subject to buyer finance and to settlement after title registration. Deposits of 10% provide a meaningful incentive to settle. Bayline Projects Marketing monitors buyer finance approvals and will report settlement risk to the Borrower monthly.

7. Development budget

Cost item	A$M	A$000 per lot
Land allocated to stages 1 and 2	14.0	94.6
Civil and infrastructure construction	29.6	200.0
Infrastructure charges	6.2	41.9
Professional fees and consultants	3.6	24.3
Sales, marketing and legal	2.9	19.6
Contingency	3.0	20.3
Capitalised interest and fees	7.7	52.0
Total development cost	**67.0**	**452.7**

Total development cost, stages 1 and 2 (excluding GST)

Civil and infrastructure construction is estimated at A$29.6M, or about A$200,000 per lot. The estimate is the Borrower's cost plan prepared with the project engineer and is subject to review by the lender's quantity surveyor. The contingency of A$3.0M is equal to about 10% of civils cost. Land is allocated to stages 1 and 2 on the basis of lot yield (148 of 286 lots). The balance of the A$27.0M purchase price attributable to stages 3 to 6 is outside total development cost for this facility.

8. Security and credit support

- First registered mortgage over the whole site, including the stages 3 to 6 land. This gives the lender control of the entire asset and the benefit of land value beyond the 148 lots funded.
- General security agreement over all present and after-acquired property of the Borrower, including contracts, deposits, project accounts and insurances.

- Sponsor completion guarantee from Precinct Communities Group Pty Ltd, covering cost overruns and delay costs to practical completion of stages 1 and 2.
- Assignment of contractor, consultant and development agreements, and step-in rights over the civil works contract.
- Sales contracts and deposits assigned to the lender, with settlement proceeds paid directly into a controlled account.
- Sponsor equity of A$15.0M injected ahead of the first facility drawing.

9. Financial analysis

9.1 Key metrics, Sponsor case

Metric	Sponsor case
Gross realisation (148 lots)	A$80.7M
Total development cost	A$67.0M
Development margin	A$13.7M
Margin on cost	20.4%
Facility limit	A$52.0M
Loan to cost ratio	77.6%
Loan to gross realisation ratio	64.4%
Presales by lot count	33% (49 lots)
Presales by value	A$26.4M
Absorption and sell-out	8.0 lots per month, about 18.5 months

Key credit metrics, Sponsor case

At the Sponsor case, the facility is repaid from settlement proceeds well inside its term. Average debt per lot is about A$351,000 against an average net lot price of about A$545,000. At the indicative release price of 110% of allocated debt, each lot released contributes about A$386,000 of debt repayment once the initial 60% threshold has been met.

9.2 Sensitivities

The Sponsor has tested the effect of lower revenue and higher civils cost. In each case the facility limit is held at A$52.0M and any cost increase is met by additional Sponsor equity or contingency.

Scenario	GRV (A$M)	TDC (A$M)	LVR on GRV	Margin on cost
Sponsor case	80.7	67.0	64.4%	20.4%
GRV down 5%	76.7	67.0	67.8%	14.4%
GRV down 10%	72.6	67.0	71.6%	8.4%
Civils cost up 10%	80.7	70.0	64.4%	15.4%
GRV down 5%, civils up 10%	76.7	70.0	67.8%	9.6%

Sensitivity of key ratios to revenue and civils cost

The project remains profitable in each scenario shown. A combined 5% fall in revenue and 10% rise in civils cost reduces margin on cost to 9.6% but does not eliminate it. Lenders will form their own view on revenue and cost from independent reports.

10. Key risks and mitigants

The Sponsor has identified the following principal risks. Prospective lenders should consider these alongside their own due diligence.

Risk	Description	Mitigant
Sales velocity and conversion	Only 33% of lots are under contract. Buyers may fail to obtain finance or may face valuation shortfalls at settlement.	10% deposits, early campaign momentum, conditions on stage 2 drawings tied to presales, monthly sales reporting
Construction cost and programme	Civils are estimated at A$29.6M. Earthworks are exposed to wet weather and ground conditions.	Contingency of A$3.0M, fixed price packages where possible, Sponsor completion guarantee
Thin cover if outcomes are weaker	Lower revenue or higher cost reduces margin and raises LVR on GRV.	A$15.0M equity first, sensitivity analysis, release price at 110% of allocated debt
Market and affordability	Lot prices near A$545,000 depend on buyer borrowing capacity. Rate rises or a weaker first home buyer market could affect price and absorption.	Entry priced lots relative to inner markets, staged release, flexibility to adjust release timing
Approvals and charges	Parts of the site are in a flood and overland flow overlay. Conditions or revised infrastructure charges could add cost or delay title registration.	Operational works approval in hand for stages 1 and 2, engineering design addresses overlay, charges budgeted at A$6.2M
Sponsor and concentration	The Borrower is a single-project vehicle that relies on the Sponsor for equity, completion support and stages 3 to 6 funding.	Whole-of-site mortgage, Sponsor guarantee, Sponsor financial reporting covenants

Principal risks and proposed mitigants

11. Proposed covenants

- Loan to gross realisation ratio not to exceed 65% on the lender's assessed gross realisation at financial close and at each drawing, unless the lender agrees otherwise.
- Sponsor equity of A$15.0M to be fully contributed before the first drawing.
- Minimum presales of 50% of stages 1 and 2 by lot count (74 lots) before drawings for stage 2 civil works, with contracts at arm's length and deposits of at least 10%.
- Cost to complete test at each drawing, with any shortfall funded by the Sponsor.
- Monthly reporting of sales, deposits, construction progress, cost to complete and variations, with a lender's quantity surveyor certifying each drawing.
- Repayment from lot settlements in accordance with the release price mechanism, with all proceeds paid to a controlled account.
- Sponsor to maintain minimum net assets and liquidity at levels to be agreed, tested annually on audited accounts.
- No distributions to the Sponsor, and no additional borrowings or security over the site, until the facility is repaid in full.

12. Conditions precedent and subsequent

12.1 Conditions precedent to first drawing

- Credit approval and executed facility, security and guarantee documents, with Calloway Finch Lawyers' legal opinions.
- Independent valuation on an as-is and as-if-complete basis, and an independent quantity surveyor report on cost, programme and contingency.
- Evidence that Sponsor equity of A$15.0M has been contributed.
- Registration of the first mortgage and GSA, and satisfactory title, planning and environmental searches.
- Copies of the development approval, operational works approval and civil works contracts.
- Insurance certificates of currency, with the lender noted as interested party.
- Sales contracts, trust account statements and confirmation of deposits held.
- Payout of the acquisition loan on terms acceptable to the lender.

12.2 Conditions subsequent

- Satisfactory completion of Sponsor audited financial statements delivery each year, prepared by Westmere Partners Audit Pty Ltd or another acceptable auditor.
- Delivery of security over Sponsor-owned project accounts within an agreed period after financial close.
- Delivery of any further consents for stage 2 works prior to the first stage 2 drawing.

13. Process and next steps

Lenders interested in the facility are invited to submit an indicative proposal to Tidewater Capital Advisory Pty Ltd, setting out the proposed limit, pricing, fees, key conditions and credit approval timetable. The Sponsor will make a data room available to parties who sign a confidentiality undertaking, containing the approvals, masterplan, cost plan, sales contracts, programme and Sponsor financial information. Site inspections can be arranged on request.

14. Approval for issue

Prepared by	Precinct Communities Group Pty Ltd (trading as Precinct Communities)
Approved for issue by	Daniel Kerrigan, Managing Director and Chief Executive Officer
Finance review	Priya Eastwood, Finance Director
Date of issue	2 February 2026
Contact address	Level 6, 40 Creek Street, Brisbane QLD 4000
